Town of Olney Springs  
401 Warner Avenue  
Olney Springs, Colorado 81062  
Mayor Dan Morin

To whom it may concern,

The Town of Olney Springs would like to recognize two Circuit Riders from Colorado Rural Water Association and send them a letter of appreciation for their due diligence and services. This past year, Chuck Goin and Dave Diss have visited our small town on multiple occasions to not only help train our Maintenance Man, but also to help troubleshoot issues with our water and wastewater systems. Since they have been in contact with us, our new ORC, Giovanni DeVore, has gained a wealth of knowledge and resources in order for him to pass his certification exams to become a Certified Water Professional. In under a year, with the help of these two amazing Circuit Riders, Giovanni DeVore has received three certifications that make him more than qualified to be our ORC, not to mention the abundance of resources that he has acquired in order to fulfill his duties as a water operator! Thanks to these amazing water professionals, our little town has a permanent ORC who can not only operate and maintain our facilities, but give answers to tough questions that our citizens ask about our water.

The Town of Olney Springs would like to send their appreciation and gratitude to Colorado Rural Water Association and its Circuit Riders for always being there when we need them! Thank you, CRWA for Chuck and Dave and for all the great things you do for small rural communities like us.

Sincerely,

Mayor Dan Morin
