Trent Maurer, Georgia Southern University, United States  
Christopher Ostrowdun, University of Calgary, Canada  
Carol Rolheiser, University of Toronto, Canada  
Susan Smith, University of Sussex, UK  
Angela Zito, University of Wisconsin-Madison, United States

**Title:** [A collaborative panel presentation for ISSOTL 2021: Sustainable Education through SoTL: practices and Cultures](#)

**Abstract:**

Our current context has magnified the need to connect with like-minded colleagues. Accordingly, this panel discussion will create an opportunity to connect with colleagues through ISSOTL's Interest Groups.

The panel will begin with a short presentation to explain what Interest Groups are, provide examples, and articulate the value of membership in furthering one's SoTL practice.

Facilitated by Interest Group Chairs/Co-Chairs the main body of the session will encourage discourse, facilitate interaction, solicit feedback, and invite questions. The presentation will close with a series of signposts to share how and where delegates can gain more information about ISSOTL interest groups.

For further information please visit our [Interest Group page](#).

*Scholarship of Learning (SoL) Interest Group: Co-leads Angela Carbone, Carol Rolheiser*

Committed to pursuing scholarly work on the relationships between leading, teaching and learning, this interest group's mission is to create opportunities for dialogue, to promote scholarly research on the topic, and to provide support to ISSoTL members interested in and engaged in leadership.

For more information, please contact co-leads Angela Carbone at [ange.carbone@rmit.edu.au](mailto:ange.carbone@rmit.edu.au) or Carol Rolheiser at [carol.rolheiser@utoronto.ca](mailto:carol.rolheiser@utoronto.ca).
