

NOVEMBER MEETING OF THE TENNESSEE ACADEMY OF SCIENCE

The eighty-seventh meeting of the Tennessee Academy of Science will be held at Tennessee Technological University in Cookeville on Friday and Saturday, November 18-19, 1977. We hope that you have made plans both to attend and to present a paper at one of the section meetings.

In order for abstracts of papers presented at the November meeting to be included in the April 1978 issue of the *Journal of the Tennessee Academy of Science*, it is necessary that the paper title and an abstract (not longer than 150 words) be sent to the appropriate section chairperson (names and addresses are given below). September 30 was the date suggested by the program chairperson; though this date is past, we wish to reiterate the request for prompt action.

The General Session speakers on Friday morning and the banquet speaker will be persons of national renown. The theme of the presentation will be "Energy and Environment."
